

MOTO LAUNCHES COMMUNITY CHARITY

Motorway service area giant Moto are celebrating the launch of their own charity – The Moto in the Community Trust.

Over the past 5 years, Moto people have shown their passion for charity and community fundraising by raising over £750,000 for their favourite charities and good causes, and they are well on their way to reaching one million pounds.

The new Charity will focus on;

Charity Fundraising

- Raising money for Moto's favourite national and community charities

Supporting Moto Communities

- Identifying opportunities to assist with community projects, providing financial assistance and people power where it is needed most

Safety and the Environment

- Raising awareness of road safety issues on Motorways, and in our communities
- Recognising our impact on the environment and finding ways to educate Moto customers and staff about environmental issues. Forming partnerships with environmental charities and organisations to actively make a difference.

Staff Volunteering – Making a Difference Scheme

- Moto People given the opportunity to make a difference to causes that matter to them – in work time

Moto Benevolent

- Recognising Moto People in times of hardship, offering help and support when it's needed most

Brian Lotts, Moto's Managing Director said "We are very excited about our new charity. We've been working to help our communities for some time now, and quite simply – we want to do more to make a difference. We believe that the areas that we have chosen to focus on will really benefit the communities that our Moto sites are part of. Our new charity recognises the tremendous achievements our people have made so far, and will inspire us to continue with our charitable work into the future."

ENDS

NOTE TO EDITORS

Moto Hospitality Ltd, part of Compass Group UK, is Britain's biggest operator of motorway service areas, with 48 sites catering for the needs of over 120 million travellers every year.

Compass Group PLC is the world's largest foodservice organisation with annual revenues in excess of £11 billion and employing more than 375,000 people in over 98 countries. In the UK and Ireland, Compass Group has annual revenues in excess of £3 billion, employing over 110,000 people.
